Education

SRM Institute of Science and Technology **Aug 2023 – May 2027**
Bachelor of Technology in Computer Science | CGPA: 9.02 *Chennai, India*

Experience

Infosys Limited — Intern (Training Program) **Mar 2026 – Mar 2026**
iOS App Developer Mysore, India

- Participated in a 4-week internship program focused on software development and enterprise technologies.
- Worked on assigned technical projects involving software development concepts and problem solving.
- Collaborated with mentors and peers to design and implement solutions for assigned tasks.
- Presented project outcomes and technical learnings as part of the final evaluation.

iOS Development Center (Powered by Apple & Infosys), SRMIST, Chennai **Aug 2025 – Present**
iOS App Developer *On-site*

- Developed iOS applications using Swift, SwiftUI, and UIKit, following industry-standard iOS development practices.
- Designed and implemented responsive and scalable UI components for real-world mobile applications.
- Integrated Supabase for backend services including authentication, database management, and real-time data handling.
- Collaborated in a professional development environment aligned with Apple and Infosys-supported training and standards.

Suresh Dani's Classes — AI Agent Development Intern **Mar 2026 – Present**
Mobile App Developer *Remote*

- Developing a cross-platform mobile application using React Native for both Android and iOS platforms.
- Implementing scalable UI components and navigation flows using React Native, JavaScript, and REST APIs.
- Integrating backend services to support real-time data processing and AI-driven application features.
- Collaborating with the development team to design and optimize features for an educational learning platform.

Projects

UTSAV Event Planner — Mobile Application (iOS & Android) **Appstore** **Playstore** **Aug 2025 – April 2026**

- Built and shipped a full-featured event planning application for managing events end-to-end across iOS and Android.
- Developed core modules for event creation, vendor management, lead distribution, payments, inventory, and staff operations.
- Implemented a real-time lead distribution workflow that sends event requirements directly to vendors.
- Integrated Supabase for authentication, database operations, caching, and real-time synchronization.
- Published the app to the App Store and Google Play.

UTSAV Vendor —MobileApplication (iOS & Android) **Appstore** **Playstore** **Aug 2025 – April 2026**

- Built and shipped a vendor-facing mobile app for managing event leads from planners.
- Developed modules for leads, payments, inventory, and vendor profiles.
- Enabled real-time communication and status updates between planner and vendor apps.
- Integrated Supabase for authentication, database operations, and real-time sync.
- Published the app on the App Store and Google Play.

Car Rental MarketPlace — MERN Stack. **Live** **GitHub** **Jan 2026 – Jan 2026**

- Architected a two-sided marketplace connecting car renters and car owners.
- Developed role-based dashboards for listing management, booking tracking, and analytics.
- Built scalable backend APIs and responsive frontend using MERN stack.
- Implemented authentication, authorization, and data persistence using MongoDB and JWT.

Professional Skills

Languages: Swift, JavaScript, C, C++, Python, HTML, CSS

Mobile Development: SwiftUI, UIKit, React Native, Xcode
Web Development: React.js, Node.js , Express.js , REST APIs
Databases: MongoDB, MySQL, PostgreSQL, Supabase
Tools: Git, GitHub, Version Control
Business & Product Skills: Case Study Analysis, Marketing Strategy, Sales Fundamentals, Startup & Business Models

Extracurricular Activities

- Learn and share content on business case studies, marketing strategies, and sales insights on LinkedIn.
- Actively learn and analyze startup models, business frameworks, and product strategies.
